

Turn Your Service Advisors Into Closers — In 90 Days.

From uncertainty to certainty. From script to instinct. From advisor to closer.

THE PROBLEM

Most independent auto shops lose money in the first 90 seconds of every call.

- ✗ Advisors quote prices on the phone instead of earning the appointment
- ✗ Customers compare you to chain shops because they never saw what makes you different
- ✗ "Let me think about it" kills 40% of presented work — and nobody follows up
- ✗ Tech-advisor handoffs leak revenue every shift
- ✗ Complaints become Yelp reviews because no one runs L.A.S.T. recovery
- ✗ Promotions feel arbitrary — your top performer can't be replicated

THE SYSTEM

A documented, drillable, measurable sales operating system. 8 steps. 9 KPIs. 5 mastery levels. Run by a trained Coach inside your shop.

01 RAPPORT	02 CREDIBILITY	03 CUSTODY	04 INSPECT
05 STRATEGIZE	06 PRESENT	07 OBJECTIONS	08 CLOSE

THE TRUST TRIANGLE

Every customer silently grades the advisor on three traits. Score all three and price becomes irrelevant.

1 COMPETENT	2 TRANSPARENT	3 TRUSTWORTHY

Each phase has a measurable gate. You don't advance until the current phase is locked. That's how this system actually installs — not by talking about it, but by gating on KPIs you can see on the wall.
